   - the shares may be purchased until the end of the eighteenth month starting from the date of the resolution of the Shareholders’ Meeting taken on April 29, 2010;
   - the purchase can be carried out on the market in one or more times and on a rotational basis in compliance with legal limits, as agreed with Borsa Italiana S.p.A. enabling compliance with the equal treatment of shareholders, pursuant to art. 132 of TUF and art.144-(2) subsection 1 of Consob Issuers Regulation and in accordance with any other applicable legislation, or in a different form where permitted by art. 132, subsection 3, of TUF or in accordance with other provisions applicable at the time of the purchase.    a) the shares can be sold at any moment without time limits;
   
   b) the sales can be carried out even before the purchases are exhausted and can be made, one or more times, in blocks or by offer to the shareholders and the employees, or as counter value in case of trade, exchange, transfer, allocation or
other disposal of treasury shares made under acquisitions of holdings or implementation of industrial projects or other extraordinary financial transactions that involve allocation or disposal of treasury shares (such as mergers, spin-off, issuance of convertible bonds or warrants, etc.) or to service stock option plans; the Company can also act to stabilize the price of the company share on the market, or intervene on the share price with relation to contingent market situations, facilitating trade in a time of low market liquidity and promoting the regular course of trading;

b) the curriculum vitae of each candidate, containing detailed information about the candidate’s personal and professional characteristics;

The ownership of the minimum percentage of the share capital of the Company required to submit the lists is determined according to the shares that are registered in the name of the shareholder on the date on which the lists are filed at the Company. The relevant certificate may be provided also after the filing of the lists, but in any case, within the term set to make the list available to the public by the Company. The list are made available to the public, according to the law, at the Company registered office, on its internet website and according to other requirements of the applicable legislation and regulation.

The Board of Directors will be appointed as outlined below:

a) If no list is submitted, the directors shall be appointed by the Shareholders’ Meeting on a majority vote in compliance with the law.
b) If a single list is duly submitted, all the members of the Board of Directors to be appointed will be taken from said list.

c) If two or more lists are submitted: (i) on the basis of the sequential order in which they appear in the sections of the list, all the directors to be appointed except one are taken from the list that obtained the highest number of votes, (ii) the remaining director is taken from the list that obtained the second highest number of votes (and that has no association with the shareholders who submitted or voted the list that obtained the highest number of votes), who will be the one indicated with the first sequential number in the list. If it is impossible – for any reason – to take the required number of directors with the criteria indicated in letter (i) the missing directors will be taken from the same list.

d) In case of a tied vote (i.e. if two lists both receive the highest number of votes, or the second highest number of votes) the Shareholders’ Meeting will repeat the ballot, with a slate vote, to appoint the entire Board of Directors.

e) If, at the end of the ballot, the number of directors who meet the necessary independence requirements is less than the number specified by law, the last elected candidate who has the highest sequential number in the list that obtained the largest number of votes and does not meet the requirements shall be excluded. The excluded candidate shall be replaced by the next candidate who meets the said requirements, taken from the same list as the excluded candidate, or if this is impossible, from the list that obtained the second largest number of votes. Such procedure shall be repeated until the appointment of the number of directors who meet the necessary independence requirement or until all the list will be exhausted. If, by following such procedure it is impossible to elect the required number of directors, the missing directors shall be appointed by the Shareholders’ Meeting on a majority vote based on the candidates submitted by the present shareholders.

f) If the list that received the second highest number of votes fails to reach a percentage of the votes equivalent at least to half of those necessary for the submission of the lists envisaged above, all the directors to be appointed will be taken from the list that receives the highest number of votes cast by the shareholders, on the basis of the sequential number with which the candidates appear in the list.

g) If the list that received the second highest number of votes has received the vote cast by one or more shareholders considered to be associated with one or more of the shareholders that submitted the list that received the highest number of votes, said votes shall not be counted. Consequently, the remaining elected director will be the candidate with the first sequential number appearing in the list that received the second highest number of votes counted excluding the votes of the shareholders associated with others, but, if excluding such votes, no list reaches the minimum quorum referred to in subparagraph f) all the directors to be appointed will be taken from the list that received the highest number of votes, on the basis of the sequential number with which the candidates are listed.

If, for any reason, the appointment of one or more directors cannot be made in the way provided above, the provisions of law governing the appointment of the Board of
Directors are applied instead, without observing the voting procedure as above, agreed that the candidates to the office have accepted their candidacy and declared, under their own responsibility, that no grounds for ineligibility or incompatibility exist, and that they meet the requirements established by the applicable legislation.

The Board of Directors shall hold office for three financial years, agreed that the Directors’ term of office shall expire on the date of the Shareholders’ Meeting that approves the financial statements for the last financial year of their term of office. The Directors may be re-elected.

Independent directors are required to notify the Board of Directors immediately of any cessation of the criteria of independence required by law. The cessation of said requirements will result in expiry of the term of office if, because of such, the number of directors who meet the necessary independence requirements is lower than the number specified by law.

If one or more directors should cease to be available for any reason, and if said unavailability is not such as to result in the loss of the majority of the directors appointed by the Shareholders’ Meeting, the Board of Directors will replace the unavailable director or directors according to the law. If the director who ceased to be available was taken from the list that received the second highest number of votes, he will be replaced by means of co-optation of the candidate appearing with the second sequential number in said list, provided that said candidate is still eligible and willing to accept the office, or if it proves impossible to obtain a candidate to co-opt from this said list, then by the candidate appearing with the first sequential number in other lists, providing that said list has received the minimum quorum based on the number of votes that each list received.

The deputy’s term expires concurrent with the other Directors in office at the time of his appointment to the Board.

If the ceased director is an independent director, he will have to be replaced by means of co-optation with another independent director. The replacement will be carried out appointing the first eligible candidate from the same list of the Director who ceased to be available, providing that he’s willing to accept the office, or, if not possible, appointing the first eligible candidate willing to accept the office by sequential number from the other lists that received the minimum quorum based on the number of votes that each list received.

The deputy’s term expires concurrent with the other Directors in office at the time of his appointment to the Board. If it impossible to follow such procedure either because the lists are insufficient or the candidates are unwilling to accept the office, the Board of Directors appoints by co-optation a Director following the provisions of the law, according to the art. 2386 of the Civil Code. The Director chosen by co-optation remains in office until the following Shareholders’ Meeting which either confirms his appointment or resolves to replace him by means of majority vote, waiving from the list system.

If the majority of the Directors ceases to be available, the entire Board of Directors is considered to have lapsed and the Shareholders’ Meeting has to be called immediately to nominate new Directors.
During the time preceding the appointment of the new Board of Directors, the lapsed Directors can only undertake to act of ordinary administration.

4.3. ROLE OF THE BOARD OF DIRECTORS

Throughout 2011 the Board of Directors held 4 meetings with an average length of the meetings that varied between one hour and one and a half hours, depending on the subjects on the agenda.

For 2012, 4 Board meetings have been scheduled as of the date of the present Report.

The Board members receive the documentation concerning each session 4-5 days in advance in order to dispose of the necessary time to examine it.

In 2010 no person external to the Board of Directors (with the exception of the Board Secretary) took part in the meetings.

The general meeting did not generally and preventively authorize dispensations from the non-competition clause set forth in art. 2390 of the Civil Code.

POWERS OF THE ADMINISTRATIVE BODY

For the validity of the resolutions of the Board of Directors, the presence and favorable vote of the majority of Directors in office is needed.

The resolutions concerning the acquisition and/or sale of stakes in other companies, of companies and/or branches of companies for single amounts higher than 25,000,000 (twenty-five million) Euro but lower than 50,000,000 (fifty million) Euro must be submitted to the approval of the Executive Committee (if constituted), while, in lack of such a body, these resolutions are the exclusive competence of the Board of Directors.

The resolutions concerning the acquisition and/or sale of stakes in other companies, of companies and/or branches of companies for single amounts higher than 50,000,000 (fifty million) Euro are the exclusive competence of the Board of Directors.

With the exception of the resolutions mentioned above, if during the vote for a resolution an equal number of votes is registered, the motion which has received the Chairman’s favorable vote will be considered approved.

The Board of Directors is vested with the widest powers in the ordinary and extraordinary management of the Company, without any exception, and has the power to carry out any action it considers necessary for the implementation and achievement of the corporate aims, with the only exception of those actions which the law peremptorily reserves for the Shareholders’ Meeting.
In addition to the matters previously indicated, and provided what is resolved in articles 2420-ter and 2443 of the Civil Code, the following resolutions are the exclusive competence of the Board of Directors, and are to be made in abidance of art. 2436 of the Civil Code:
- simplified mergers or demergers under articles 2505, 2505-bis, 2506-ter, last paragraph, of the Civil Code;
- institution or suppression of secondary offices;
- relocation of the company head office on national territory;
- indication of which Directors hold legal representation;
- reduction of the capital following withdrawal;
- adjustment of the Statute to legislative provisions,

provided that the aforementioned resolutions can in any case be made during the Shareholders' Meeting in an extraordinary session.

The document for yearly self-evaluation about the operation of the Board of Directors under the Code for Corporate Governance is composed in view of the “Regulations about the operation of the Board of Directors at Tamburi Investment Partners S.p.A.” approved by the Company.

The Board has assessed the adequacy of the general organizational, administrative and accounting framework of the Issuing Company with particular reference to the internal audit system and to managing conflicts of interests. Once the proposals of the specific committee were examined and the Board of Statutory Auditors was consulted, the Board determined the remuneration of the Managing Director and the other Directors who hold particular posts. The total emolument for Board members not holding particular posts has been set by the general meeting on 29 April 2010 at 80,000 Euro per year to be divided by the aforementioned Board members in equal parts (10,000 Euro per Member).

The Board has assessed the general functioning of the management, considering, particularly, the information received by the delegated bodies, and periodically comparing the obtained with the planned results.

The Board has the exclusive right to examine and preventively approve the operations of the Issuing Company, when such operations have a significant strategic, economic, or financial importance to the Company.

On 15 March 2012, the Board of Directors assessed the adequacy of the administrative body and reached the following considerations:
- the number of components of the Board of Directors is adequate in relation to the need to include professional figures with competences in the various fields.
concerning the company’s business, with the purpose of making decisions about investments in stakes in middle-sized companies;

- the composition of the Board of Directors is adequate and proportionate to the various experiences and competences which the single Board members possess in their respective fields.

The Board of Directors of May 3, 2010 has determined, after examining the proposals of the dedicated committee and after consultation with the Board of Statutory Auditors, the remuneration of the Managing Directors and of other directors holding particular positions, and the subdivision of the overall remuneration due to the Board members.

(Italian Stock Exchange) (occurred on December 2010), and based on the information supplied by the Directors resolved:
- that Board members Mr. Giuseppe Ferrero, Mr. Claudio Gragnani, Mr. Marco Merati Foscarini and Mr. Giancarlo Mocchi hold the requirements of independence pursuant to article 148, paragraph 3, of the New Unified Text of Provisions Regarding Financial Intermediation (TUF) (as invoked for directors by article 147-ter, paragraph 4, of the TUF), as well as to article 3 of the Corporate Governance Code; in particular, with reference to Board member Marco Merati Foscarini, the Board of Directors considered that the fact that he has been a Director of the Company for more than nine years in the past twelve years, during which the Board member has had the opportunity to prove his absolute independence and autonomy of judgment, does not obstruct the subsistence of the abovementioned requirements.
- that the number of the Company’s independent non-executive Directors is appropriate to the size of the Board of Directors and to the Company’s business, pursuant to what is set forth in the applicative criterion 3.C.3 of the Corporate Governance Code as well as in the resolutions enacted by Borsa Italiana regarding the recognition of the Star qualification for the shares of listed companies.
On March 15, 2011 the Board of Directors decided that Mr. Carlo Magnani, co-opted by the Board, meets the requirements of independence under both Article 148, paragraph 3, of the TUF (as recalled for directors in article 147-ter, paragraph 4, of the TUF) and article 3 Code of Corporate Governance.

5. TREATMENT OF CONFIDENTIAL CORPORATE INFORMATION

TREATMENT OF INSIDE INFORMATION

On 28 July 2005, TIP’s Board of Directors resolved to adopt procedures for the treatment of inside information as under article 181 of the TUF, that is information of a precise nature, not in the public domain, which refer directly or indirectly to TIP and which are of such a nature that, if made public, could noticeably influence the trend of TIP’s Shares (here comprised, by way of an example, is accounting or economic-financial information concerning the Issuing Company, information about the progress of certain business, about the distribution of dividends, about the relations with correlated parties, about forecasts and quantitative objectives concerning the management, about rumors, about projects, negotiations and manifestations of intentions for which there is a justified fear of uncontrolled disclosure to the market or reasonable expectations about a positive conclusion to the operation, about extraordinary operations, about significant purchases or conveyances, about the acquisition or alienation of own shares, about the acquisition or alienation of stakes, about changes in the strategic personnel etc.) (the “Inside Information”). Such procedures are binding with respect to the Directors and Auditors of TIP as well as with respect to the employees and in general to the people in possession, on grounds of the functions they develop, of Inside Information. Such procedures have been instituted with the purpose of (i) preventing the abuse of Inside Information and the manipulation of the market also pursuant to and to the effect of article 187-quinquies, fifth paragraph, TUF and
of articles 6, 7, 8 and 12 of Legislative Decree 231/2001, (ii) regulating the management and treatment of Inside Information, as well as (iii) establishing the modalities to be observed for the communication, both inside and outside the corporation, of documents and information concerning TIP and/or the T&A division with particular reference to Inside Information. The procedures have moreover been set forth in order to (i) avoid that the treatment of Inside Information should take place in an inopportune, incomplete or inadequate manner or in any case should be such as to provoke informative asymmetries, and (ii) protect the market and investors by ensuring them an adequate knowledge about the affairs concerning TIP on which to base their investment decisions.

The procedures regulate, among other things, the ways of internal management and communication of Inside Information, the general obligation of confidentiality of the informed people concerning the possessed Inside Information, the appointment of an Informative Referent assigned to execute the procedures and ensure they are respected, and to refer to the Board of Directors as well as handle, under the surveillance of the Board of Directors, TIP’s relations with the bodies of information, the institution and the keeping of a register to indicate the people aware of the Inside Information and the contents and management of TIP's website.

Informative Referent is Alessandra Gritti and Claudio Berretti is her substitute.

6. COMMITTEES WITHIN THE BOARD OF DIRECTORS

The Board of Directors of the Company has appointed a remuneration committee (cfr. paragraph 8 below) and an internal audit committee (cfr. paragraph 10 below) within the Board.

As far as the institution and functioning of the internal Board committees (remuneration committee and internal audit committee) are concerned, the Board of Directors applies the principles and criteria set forth in article 5 of the Corporate Governance Code, as it is also more precisely specified further down in the present document. To this effect, the Board of Directors meeting held on 12 November 2010 approved two separate sets of internal regulations regulating the composition, functioning and functions of the remuneration committee and the internal audit committee respectively.

The Company makes financial resources available to the abovementioned committees, appropriate for the fulfillment of their tasks, within the limitations of the budget approved by the Board of Directors.

No committee developing the functions of two or more committees as under the Code has been constituted.

7. APPOINTMENTS COMMITTEE

No nomination committee has been constituted.
8. REMUNERATION COMMITTEE

The remuneration committee consists of the Independent Members Mr. Claudio Gragnani, Mr. Giuseppe Ferrero and Mr. Marco Merati Foscarini, who possess adequate knowledge and experience in financial matters.

The chairman of the remuneration committee is Mr. Marco Merati Foscarini and was chosen by the Committee itself.

The regulations of the remuneration committee adopted by the Board of Directors on 12 November 2010, sets forth that said committee be composed by three non-executive Directors of which two must be independent. The same regulations dictate a discipline concerning the composition, functioning and functions of the remuneration committee, which is applicative and supplemental to the one under articles 5 and 7 of the Corporate Governance Code relating the “Remuneration Committees”.

The remuneration committee has advisory and propositional functions with respect to the Board of Directors, and in particular: (a) formulates proposals to the Board of Directors concerning the remuneration of the delegated Board members and of the directors who hold particular posts, supervising the application of the decisions adopted by the Board of Directors itself, as well as concerning any plans for stock options or allocation of shares; (b) annually formulates proposals to the Board of Directors concerning the employees’ variable component; and (c) periodically assesses the criteria adopted for the remuneration of directors with strategic responsibilities in the Company and in its controlled companies, and supervises their application based on the indications provided by the delegated Board members and provides general recommendations regarding these issues to the Board of Directors.

When operating, the remuneration committee can access any corporate information and function necessary to carrying out its tasks, making use both of the assistance of the Company’s employees, and of that of external consultants experts in the field of retribution policies, in the latter case within the terms established by the Board of Directors.

It is to be pointed out that the remuneration committee which summoned on 10 March 2011 resolved to propose to the Board of Directors the approval of a share-based incentive plan. Following the guidelines of the incentive plan approved by the Shareholders’ Meeting on April 29, 2011, on August 4, 2011 the Board of Directors has adopted the “TIP Incentive Plan 2011/2014” addressed to executive directors and employees and, during the same meeting, has provided the allocation of options to the identified beneficiaries.

accounting principles and their homogeneity for the purpose of consolidated financial statements (if any), (c) at the request of the executive director appointed for that task, gives advice on specific issues related to the identification of corporate risks and to the design, implementation and management of the internal control system; (d) reviews the work plan prepared by the internal control personnel and the periodic reports prepared by them, (e) evaluates the plan prepared by the independent auditors for the audit and the conclusions provided in their report and in any letter of recommendations; (f) reports on the undertaken activity and on the adequacy of internal control system to the Board of Directors at least every semester, and however, at the time of approval of the financial statements and interim half-year report; and (g) performs any other duties assigned by the Board of Directors.

In carrying out its duties, the internal audit committee has access to information and functions necessary for the performance of its duties, making use of either the help of the employees of the Company and the external consultants, in which latter case within the terms established by the Board of Directors.

On March 15, 2011 Mr. Carlo Magnani was appointed in substitution of Mr. Giancarlo Mocchi.

For information on the number of Committee meetings held during the year and the percentage of attendance of each member in these meetings, please refer to Table 1 in Appendix to this Report.

c) in the event of parity (i.e., if two lists have both obtained the highest number of votes, or the second higher number of votes), where the parity has occurred for the lists that both have obtained the second higher number of votes, the candidate on the list that obtained the votes from the majority of the members will be elected;

f) if the list, which has obtained the second highest number of votes, has received the vote of one or more persons who are considered to be related to the list that has obtained the highest number of votes, those votes will not be taken into account. Consequently, regardless of whether those votes have been excluded, another list will results being the second most voted list, the remaining auditor and the other substitute (if therein indicated) will be those who are indicated by the first number of the sequential order in the relevant sections of that other list.

Should the regulatory requirements and statutory requirements be void, the auditor shall forfeit his appointment.

In case of replacement of an auditor, if possible, the substitute from the same list of the one who is replaced, will take over and will keep the office as long as the other statutory auditors in charge at the time of his entry into the Board, provided that the Chairman of the Board of Statutory Auditors shall continue to be the auditor at the top of the list that has obtained the second highest number of votes.

Where it will not be possible to proceed as indicated above, the Board of Statutory Auditors shall be deemed fully and immediately revoked and, consequently, the Shareholders Meeting should be convened to deliberate on the appointment of the Board of Statutory Auditors, in accordance with the list voting system.

If the Shareholders Meeting has to provide, pursuant to Article 2401, paragraph 1, of the Civil Code to the appointment of substitute members necessary to integrate the Board of Statutory Auditors, it shall act in the manner and by simple majority vote, notwithstanding the voting system list.

a) the Chairman and the person recording the minutes are present in the same place of the call;

b) all participants can be identified and that they are able to follow the discussion, receive, transmit and view documents, intervene orally and in real time on all topics. ANNEX 1) SECTION ON “MAIN CHARACTERISTICS OF THE RISK MANAGEMENT AND INTERNAL CONTROL SYSTEMS IN RELATION TO THE CORPORATE INFORMATION PROCESS” IN COMPLIANCE WITH ART. 123-(2), SUBSECTION 2 LETTER B, TUF
1) Premise

The risk management system should not be considered separately from the internal control system in relation to the financial reporting process - both of them are elements of the same system.

The internal control system on the company reporting has been defined consistently with the provisions of Legislative Decree 58/98 (Testo Unico Della Finanza - TUF), Art. 154-bis and 154-ter, applied to TIP S.p.A. as public companies listed on the Italian Stock Exchange.

The internal control system aims to ensure the trustworthiness, accuracy, reliability and the timeliness of the financial reporting and the capacity of the process of drafting the financial statements and interim half-year report to produce the reporting in accordance to the international accounting standards (IAS / IFRS).

2) Description of the main characteristics of the risk management system and internal control system in relation to the financial reporting process

The control structure provides supervisory means that enable TIP to guide, define and monitor the efficiency of the internal control system. Among others, the Code of Ethics and appropriate governance structures take part to this typology of control.

The structure of the controls in terms of process of financial reporting includes:

- specific controls: activities, manual or computerized, to prevent, detect and correct errors or irregularities occurring during the course of operative activities. The specific controls were separated into checks meant as decisive controls adopted for the prevention of false entries in the financial statements on which monitoring activities should focus on (typically in the case of TIP: control of revenues for services and charges according to the competences in terms of individual commissions received, evaluation of bonds and quotes) and secondary controls;

- first-level controls: include respectively the controls embedded in operative processes, and controls that govern the process of risk management and control guaranteeing consistency with corporate objectives (for example, the checks carried
out by the Manager in charge);

- independent monitoring, entrusted to the function of External Internal Audit.

With regard to the roles and functions involved, please note that these monitoring activities are subject to periodic reporting to the Managing Director for the assessment of the adequacy of the control system over financial reporting.

It is recalled that the Managing Director and the General Manager shall issue, starting from the financial statements of 2007, a certificate of accuracy/completeness of reporting and of the establishment/maintenance of controls and procedures with reference to the financial statements, and the interim half-year report; with reference also to the quarterly report and any other disclosure of financial information, the Manager in charge is required to declare the compliance with the documents, books and accounting records.

The Managing Director shall communicate the annual assessment of the internal control system to the Board of Directors and the Statutory Board of Auditors to allow the exercise of the auditing activities required by Italian law.

The Managing Director and the Manager in charge, who have set up administrative and accounting procedures for the preparation of financial statements and consolidated financial statements, certify that:

a) such procedures are adequate and have been applied during the period;

b) the separate and consolidated financial statements have been prepared in accordance with International Financial Reporting Standards;

c) the separate and consolidated financial statements are consistent with the accounting books and records;

d) the separate and consolidated financial statements give a true and fair view of assets and liabilities, of the issuer;

e) the annual management report accompanying the financial statements includes a reliable analysis and results of the operations.
